

Five Side by Side in the 1950s: Surviving Seventh Grade

A simple story about a simpler time...the 1950s. Five Side by Side in the 1950s: Surviving the 7th Grade will either take you on a wistful trip down memory lane awakening fond memories of a period that will never be duplicated or reveal a lifestyle setting you only can achieve through the magic of reading. Set in the 1950s, the book introduces you to five first year teenagers as they embark on their journey to adulthood. They couldn't even imagine their lives included being shot by at by a best friend, kidnapping another kid to save their own butts, starting a rumble when trying to help a young lady in distress (and then getting the crap beat out of them for trying to help her), going to jail for doing nothing, having to take an umbrella to class, building a baseball diamond that turned into an ice pond, having to a break up with a girl after giving her the biggest box of chocolates a 7th grader could afford, and even becoming a bunch of reluctant car thieves. And, of course, there was the schoolyard backstop incident. The five guys walked side by side from being boys to being cool. But being cool at the age of 13 turned out not to be a flick of a switch but more a trail of adventures that tested their image of what cool meant. It was a time of firsts. Things like kisses, parties, dances, love, rock and roll, homework, smoking, drinking, driving, and dealing with adults came at them so fast they didn't have time to think. Through all this they began to realize that even the tiniest of decisions they made seemed to unexpectedly effect their families and friends. A long the way they had heartbreaks and disappointments, but also a lot fun and learning about girls, junior high school, winning dance contests, and being in student council races that kids like them were not supposed to be in much less win. Cmon. Hang out with these five guys as they blaze the trail to becoming cool in the early 1950s. Each generation of teenagers

will relate to the high jinks, love, misadventures, and angst these five guys experience; just like all kids have done since there were teenage boys and girls. Enjoy more adventures with the five guys in Five Side by Side: Enduring the 8th Grade.
